

## CONNECT, COMMUNICATE, COLLABORATE

### Gain a Collaborative Workforce

- Workers stay in touch with each other, partners, and customers regardless of location.
- Real-time collaboration ensures easy, ongoing sharing of ideas and information.
- Distributed teams solve problems faster and create stronger relationships when they are connected, which translates to improved business outcomes.

### Reduce Costs & Improve Productivity

- Significant cost savings with reduced travel expenses and non-productive travel time.
- Improve access to the resources employees need to get their jobs done.

## MaX Meeting by Northland

MaX Meeting is a complete web conferencing solution for businesses with video and audio conferencing, team collaboration, screen sharing, and more. With a single click from the MaX interface, conduct face-to-face meetings, chat, share your desktops, applications, and whiteboard with anyone, anytime, anywhere, and engage with large audiences in virtual events!

### WHY CHOOSE MAX MEETING?

Choosing the right collaboration tool will have a positive impact on your productivity and create new value for your organization. Max Meeting is available fully integrated with MaX UC or as a standalone application, providing a feature rich web and video conferencing solution for businesses of all sizes.
